

Board Meeting Public Comment Statement

Available at the rear of the room are copies of the agenda for tonight's meeting. Please note that we provide time for public comment early in the agenda under item IV.

As a reminder, we have printed the guidelines for making comments on that sheet and we ask that you follow those guidelines if you plan to make public comment tonight including the three-minute time limit.

Complaints or concerns about the performance of specific school personnel cannot be discussed in open session.

Our system of public education depends on your involvement so please feel free to share with us during the time for public comments. Thank you.
